

Project Initialization and Planning Phase

Date	27 June 2026
Team ID	xxxxxxx
Project Name	Raising waters
Maximum Marks	3 Marks

Define Problem Statements:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Disaster Management Officer responsible for flood-prone regions.	Predict flood risks early and issue timely warnings to protect lives and property.	Existing flood prediction systems often provide delayed or inaccurate forecasts.	Traditional forecasting methods cannot efficiently analyze multiple weather parameters and historical data in real time.	Concerned about public safety, emergency preparedness, and reducing the impact of floods.
