

Communication

Date	02 June 2026
Team ID	XXXXXX
Project Name	Raising waters
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp	Team Lead	Discuss daily tasks and project progress.
2	Progress Update	Weekly	Google Meet / WhatsApp	Team Lead & Guide	Share weekly development progress and receive suggestions.
3	Issue / Bug Discussion	As Needed	WhatsApp / VS Code / GitHub	Team Lead	Resolve coding issues, debugging, and model-related problems.
4	Stakeholder Review	Bi-Weekly	SmartBridge Portal / Mentor Meeting	Team Lead & Mentor	Review project milestones and receive feedback.
5	Final Demo Rehearsal	Once	Google Meet / Local System	Team Lead	Verify project functionality and prepare for final presentation.
6	Project Submission	Once	GitHub & SmartBridge Portal	Team Lead	Submit the complete project, documentation, and source code.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Limited participation from team members during project development.	The Team Lead completed the major development tasks and regularly updated the mentor on project progress.
2	Difficulty in selecting the most accurate machine learning model.	Compared Decision Tree, Random Forest, KNN, and XGBoost models, then selected XGBoost based on the highest accuracy (96.55%).
3	Integrating the trained model with the Flask web application.	Successfully connected the trained model to the Flask application and validated prediction results through testing.
