

Project Demo Planning

Date	03 June 2026
Team ID	XXXXXX
Project Name	Raising waters
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, and the importance of flood prediction.	2	Bhargavi Dungala (Team Lead)
2	Problem & Proposed Solution	Explain the problem statement, dataset, machine learning models used, and the proposed solution.	3	Bhargavi Dungala (Team Lead)
3	Live Application Demonstration	Demonstrate the Flask web application by entering weather parameters and displaying the flood prediction result.	5	Bhargavi Dungala (Team Lead)
4	Model Performance	Present the comparison of Decision Tree, Random Forest, KNN, and XGBoost, highlighting the XGBoost model with 96.55% accuracy .	2	Bhargavi Dungala (Team Lead)
5	Future Enhancements	Explain IBM Cloud deployment, real-time weather API integration, and SMS/Email alert features planned for future versions.	2	Bhargavi Dungala (Team Lead)
6	Conclusion & Questions	Summarize the project outcomes and answer questions from the evaluator.	1	Bhargavi Dungala (Team Lead)

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an accurate flood prediction system and the limitations of traditional methods.
2	Solution Overview	Describe the dataset, preprocessing, machine learning models (Decision Tree, Random Forest, KNN, and XGBoost), and the Flask application architecture.
3	Live Feature Demonstration	Run the Flask application, enter rainfall and weather parameters, generate a flood prediction, and explain the result.
4	Q&A Session	Answer questions about the implementation, model accuracy, deployment, and future improvements.
